

# CHALLENGE BOX

## FILM YOUR OWN MONOPOLY GAME

This activity is for Explorers  
but any section or leaders  
could take part too !

### Explorer Challenge 1

#### What you need:

- Access to the internet
- Computer to save images
- A vivid imagination

#### How to make it:

The board game Monopoly has its origin in the early 20th century.

The earliest known version of Monopoly, known as The Landlord's Game, was designed by an American, Elizabeth Magie, and first patented in 1904.

This activity brings monopoly into the 21st century.

1. Choose a city in the UK and use google street view or similar, to create your own mini Monopoly game.
2. Identify 10 interesting buildings, features etc. and take a screenshot of each of them.
3. Direct other people to these buildings by devising a question for each location.
4. Challenge a member of your family or some friends to try to complete your challenge.

#### Take it to the next level:

Why not make a World of Monopoly and travel the world (using the internet) to create your Monopoly board.

While you are researching the next building to add to the game, take a few minutes to learn about the history of the building and the culture of the country it comes from...

#### Safety Notes:

**Online Access:** Supervise young people when they're online and give them advice about staying safe.
