

# CRAFT BOX

## LIGHT - TOILET ROLL TELESCOPE

This activity is for Cubs  
but any section or leaders  
could take part too !

### Cub Light Challenge

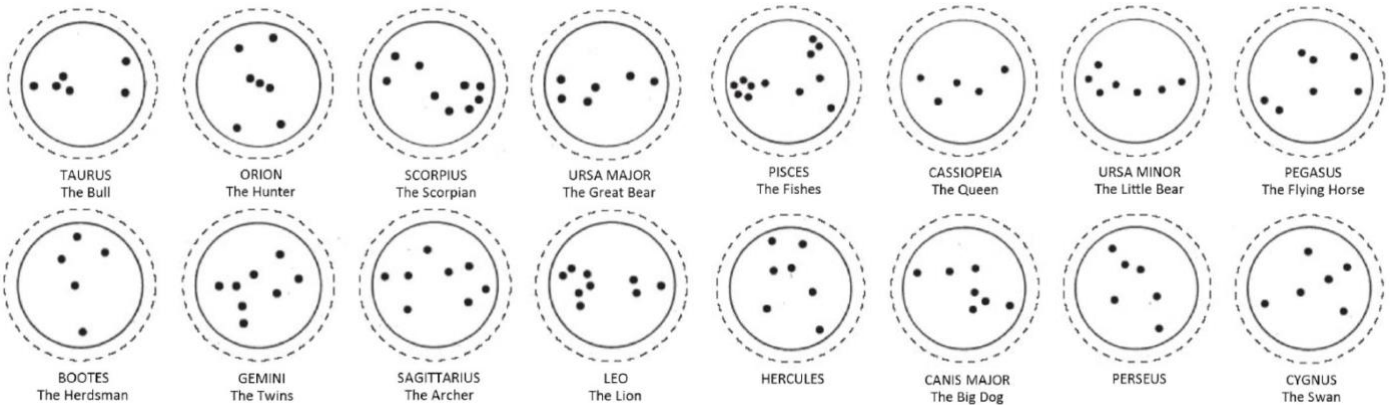

#### What you need:

- Toilet Roll Tube
- Paper
- Sticky Tape
- Cocktail Stick
- Scissors
- Pencil and Pens to Decorate (optional)

#### How to make it:

1. Cut out a circle of paper which is a bit bigger than the end of the toilet roll, enough to fold lip over the sides of the roll.
2. Use sticky tape to firmly secure the paper over the end of the toilet roll.  
Make sure it is tightly fixed or it will be more difficult to pierce holes later.
3. Using the picture of the constellations, choose one and gently mark on the paper circle the pattern of the stars.
4. Use a cocktail stick to pierce the pattern through the paper and decorate the tube with pens (optional).
5. Place the tube to one eye and close the other, then look towards a light to see the star constellations.

#### Get more Crafty:

How many constellations can you make ?

Why not create a whole universe of to explore the sky at night during the day-time or at night !

#### Safety Notes:

**Scissors / Sharp Objects:** Supervise young people appropriately when using scissors.

Store all sharp objects securely, out of the reach of young people.

**Rubbish and Recycling:** All items should be clean and suitable for this activity.
